Judge A. J. G. Wells has prepared a new law for the government of asylums of which he says: "We can promise the General Assembly this, that if this bill is passed the only financial responsibility it will impose upon the State will be to increase the per capita for maintenance from \$150 to \$180, and with that we will provide suitable quarters for treating tuberculosis patients, a ward for the criminal insane at Lakeland, and a hospital for the treatment of acute cases of nervous disorder, which will be the means of restoring to health and usefulness many a sufferer who must now be classified with the insane. With a per capita of \$180 the board will be able to make these needed improvements and will not be compelled to ask for special appropriations from each succeeding legislature to make improvements. As there are 3,500 patients, the proposed increase would bring in \$105,000 more."

**Kill More Than Wild Beasts.**

That's why chills, fever and ague, all malarial and many blood diseases yield promptly to this wonderful blood purifier. Try them, and enjoy the glorious health and new strength they'll give you.
